

An international focus

at RKBS Klavertje vier, part of the Community School

In de Breedte Community School is the perfect place for children from 0 to 13 to learn, grow, and flourish. We are two elementary schools and a childcare center pooling our strengths in a single building. The Community School is located in the heart of the Amsterdam metropolitan area, in the center of Hoofddorp's Floriande district. One of our two elementary schools – Klavertje vier – provides a solid education in the respected Dutch tradition with a strong international focus.

English as a second language

As the saying goes, what's learned in the cradle lasts to the tomb. That's why, starting in January 2018, Klavertje vier will be offering Early Foreign Language Instruction. Students will learn their way around the English language through natural conversation and play. Preschool students will sing songs and play games together; older children will work on projects and explore global studies topics in English. "Regular" English classes will round out the curriculum, to boost grammar and spelling.

airports, and careers.

Global citizens

Our world keeps getting smaller. At In de Breedte Community School, we help children develop into citizens of the world. Feeling at ease with the English language opens doors and erases borders. We strive to make the foreign familiar by welcoming students from around the world, Skyping with schools in other countries, and engaging in exchange programs. All this helps bring the world to our doorstep, and our children to the world's door.

Contact

Have we piqued your curiosity? For more information, a tour of the school, or to enroll your child, please contact Margot Andriessen, the principal of Klavertje vier elementary school. Write to m.andriessen@klavertje-vier.nl or bestuursbureau@meerprimair.nl.
